### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Yamada et al (Virology 246:104-112, 1998) discloses a DNA encoding a protein at least 90% identical over its length to SEQ ID NO: 4 or 10, see for example Figure 2 line 1 and associated GenBank accession numbers. However, Yamada does not isolate the encoded protein, using it only in the context of testing its enzymatic activity in intact recombinant bacteria. Since the specification defines "isolated" as "enriched with respect to cellular components," the reference does not meet the limitations of claim 4. Nor does the reference suggest how to isolate the protein without incurring self-cleavage, or provide motivation to choose this particular construct over the many other, shorter constructs disclosed as demonstrating protease activity.

See also reasons for allowable subject matter in previous Office actions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

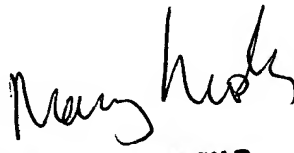

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary E. Mosher, Ph.D. whose telephone number is 571-272-0906. The examiner can normally be reached on M-T and alternate F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on 571-272-0902. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
